Chris Doose, Flintrock Builders President and Owner, is a fourth generation entrepreneur, home builder and developer. His great-grandfather established C.A. Doose and Co. in west Texas in 1895 and eventually became president of the First National Bank of Ballinger, one of the main financiers of the Abilene and Southern Railroad.

Chris' grandmother, Betty Langford, founded American Abstract & Title and was instrumental in fostering his love for the building industry. After graduating from St. Edwards University with a B.A. in International Business, Chris excelled at positions with Lennar Homes and Turner Construction.

These opportunities provided Chris insight into the intricacies of everything from single and multi-family homes to commercial development and ultimately the establishment of Flintrock Builders.

With over 150 homes to his credit, Chris and the Flintrock Builders team continue the history of excellence established by his family.
